**January 4, 2013
The Big Island
of Hawaii**

Vince Carey
iAssociate Professor of Medicine at Harvard Medical School. He is co-founder of bioconductor, and has been contributing methods and tools for longitudinal and clustered data analysis for 20 years.

Martin Morgan
Senior Staff Scientist at the Fred Hutchinson Cancer Research Center (FHCRC) in Seattle. He is the director of the Bioconductor project.

Tandy Warnow
David Bruton Jr. Centennial Professor of Computer Sciences at the University of Texas at Austin. From 2009-2011 she was the Chair of the NIH BDMA study section, and is currently an NSF program officer working on BIGDATA.

Luke Tierney
iRalph E. Waremahm professor of Mathematical Sciences and chair of department in the Department of Statistics and Actuarial Sciences at the University of Iowa. He is a member of the R Core developer group.

David Padua
Donald Biggar Willet Professor of engineering at the University of Illinois at Urbana-Champaign. His areas of interest include compilers, programming tools, machine organization, and parallel computing. He is a fellow of the IEEE and the ACM.

PSB NSF WORKSHOP
Programming with Big Data

http://www.cs.purdue.edu/homes/jv/events/PBD13/

Speakers

Jong Bhak, *PGI*

Vince Carney, *Harvard*

Jeff Foster, *U Maryland*

Martin Morgan, *FHCC*

David Padua, *UIUC*

Luke Tierney, *U Iowa*

Jan Vitek, *Purdue*

Tandy Warnow, *NSF*

Mario Wolczko, *Oracle*

Organizers

William Cleveland, *Purdue*

Ananth Grama, *Purdue*

Pat Hanrahan, *Stanford*

Chandra Krintz, *UCSB*

Suresh Jagannathan, *Purdue*

Jan Vitek, *Purdue*

Olga Vitek, *Purdue*
